

I Know That Deep Within Your Heart.

(Ich weiss dass tief in deiner Brust.)

WM. A. CALLANAN.

HEDWIG von ARNIE.

Andante moderato. *mp*

I know that deep within your heart You hold my image fond and
 Ich weiss dass tief in deiner Brust Du wahrst mein Bildnis in-
 true; I know that till death do us part, You'll still love me, as I love
 dich; Ich weiss das du in Schmerz und Lust Stets liebest mich, so wie ich
 you. But oh! I'm wea-ry, and I sigh For one sweet lov-ing word of
 dich. Doch ach! ich schuf-ze und ich klag' Nur ein süss lie-bend Wort mir
 praise, One whisper'd word to show that I Have been a com-fort all these days.
 gieb! Ein Flüs-ter-wort oh komm und sag' Dass du mich e-wig hast so lieb.
 colla voce. *f*

CHORUS.

Allegretto tempo.

On-ly a word of praise..... to com-fort me on the way,
 Sag' mir das Wort so süss..... das mir dein Lüt-res ver-rät,
 One lit-tle word of love..... re-peat-ed from day to day.....
 Sag' mir's wenn ich dich grüss..... Oh! sag' es mir früh und spät.....
 Mo-ments would then be sweet..... that I now in grief de-plore;
 Dann wird mir al-les leicht..... was mir jetzt das Herz be-drückt;
 Tell me that you love me, as you did in days of yore.....
 Sag' mir dass du mich liebst, als ich dich bin für e-wig be-glückt.....
 colla voce. *mf*

OUR LAND PURCHASES PAY.

All of Them Have Added Immensely to National Wealth.

In the Philippines as in its other land deals, the United States made a good bargain. The census of the Philippines just published shows that the forests in the islands, in which there are 747 varieties of woods, are worth about \$3,000,000,000, or double those of the States of Oregon and Washington, which are especially strong in that particular asset. Then there are great deposits of coal, iron and lead, and there are many indications of gold and silver, all of which represent a wealth of several billions more. The Philippines cost us \$20,000,000 in the lump sum which we paid to Spain. Possibly the military and naval expenditures on account of the islands cost us \$400,000,000 or \$500,000,000. But even if these figures were quadrupled we would still be gainers in that speculation in a monetary sense.

The Louisiana region, extending from the Mississippi to the Rocky mountains and the Sabine river, cost us \$15,000,000, which we paid to France. We gave \$5,000,000 to Spain for Florida, which comprised not only the present state of that name, but the lower ends of Alabama and Mississippi and most of the eastern projection of Louisiana. Texas came to us without cost, and so did the Oregon country, comprising the present States of Oregon, Washington and Idaho, and parts of Montana and Wyoming. Through conquest and the payment of \$18,250,000 to Mexico we obtained the present States of California, Nevada, Utah, the Territory of Arizona—except below the Gila river—and parts of New Mexico, Colorado and Wyoming. For the region south of the Gila we paid \$10,000,000 to Mexico. For Alaska we paid \$7,200,000 to Russia. The gold alone which we got from Alaska in 1904, not counting the coal, fish, fur, blubber or other things, amounted to over \$10,000,000. In its products Alaska has paid for itself thirty-five times over since we bought it.

The Eyeball and Vision.

Dr. Alexander Schaefer has been investigating the vision of many animal species and has found that the size of the eyeball is the principal factor of the acuteness of vision. The bovine species has the sharpest sight. The second place is occupied by man and the horse, which have nearly equal visual powers; the third by the sheep. Small, and especially small-eyed animals, whether mammals,

birds, amphibians or reptiles, have very poor sight. Owls are the only birds that possess great acuteness of vision. It has long been known that dogs have such indistinct vision that as a rule a dog is not able to recognize his master by sight alone.

Density of Population.

Although there is a certain area of about three and one-half acres on Manhattan island where the density of population is at the rate of 630,000 to the square mile, yet the city of Paris shows a far greater average density of population than New York, the figures for Paris being 79,300 square miles, and for New York city proper 40,000 a square mile. The average density of London's population is 37,300 a square mile, and that of Berlin is 67,000.

German Savings Banks.

The savings banks of Germany have some 19,000,000 pass books out and their deposits amount to 13,500,000,000 marks (\$3,213,000,000). These deposits are practically all guaranteed by the various municipalities of the empire, and the condition forms a bulwark of confidence in the security of private wealth and earnings that cannot be shaken by hard times, panics, bank failures, etc.

Finger Alphabet.

The finger alphabet as distinguished from the real deaf and dumb language of signs, appears to have been invented in Spain, to which country the world owes the first systematic deaf and dumb teaching. Its inventor was either Juan Pablo Bonet or Pedro de Ponce.

The Sympathy of Friendship.

It is sublime to feel and say of another, I need never meet, or speak or write to him; we need not re-enforce ourselves or send tokens of remembrance; I rely on him as on myself; if he did thus or this, I know it was right.—Ralph Waldo Emerson.

Owls Under a Ban.

The usual crusade is going on against the harmless, necessary owl. The good he does in consuming endless voles, shrews, moles and mice is ignored or forgotten; the evil laid to his charge is exaggerated a hundred-fold.

For Lack of Better Reason.

It is likely that many a fellow who is scarcely able to take care of himself marries a girl on the theory that she will be able to help him to do so.

All orders shipped same day letter is received. We ship C. O. D. on approval. You do not pay a cent until you have examined and found them strictly as represented. We will also send one nickel plated brass hand pump. Tires to be returned at OUR expense if for any reason they are not satisfactory on examination. We are perfectly reliable and money sent to us is as safe as in a bank. We know that you will be so well pleased that when you want a bicycle you will give us your order. We want you to send us a trial order at once, hence this remarkable tire offer.
